

RIGHTSIZE. RIGHT SUPPORT. **RIGHT** *for* **STUDENTS.**

A family guide to the proposed school changes

Every school is a community. A school change can affect friendships, routines, programs, and a family's sense of belonging. This guide explains what is proposed and why.

Scenarios A and B are proposals, not final decisions. "No changes proposed" means these options do not include a change for that school.

Each school has a snapshot and a box explaining the reasons for the proposal. The next page shows enrollment estimates, programs, student groups, and maps. Estimates cover 2027-28 through 2031-32. They are not current student counts.

The possible benefits are goals. A larger school does not automatically get a full-time librarian, certain staff, or specific programs. Those details depend on the district's staffing rules, budget, and plans for making the changes.

A school or program move does not determine where an individual student receiving special education services will go. Families and school teams would need to plan each student's services and support.

The school details, numbers, and maps come from PPS school profiles. This guide explains that information in simpler language.

Words you may see in this guide

No changes

What is expected if the district keeps the current schools and programs.

Option A / Option B

The two scenarios. "A and B" means the same information applies to both.

School boundary

The area used to assign students to a neighborhood school based on where they live.

School communities joining

Students from two or more schools would come together. The proposal says which school building would close.

Programs joining

A program would come together at one school or move to another school.

DLI

Dual Language Immersion: learning in English and another language.

School size goal

More than 360 students for K-5 schools; more than 500 for K-8 or middle schools; more than 1,100 for high schools. These are planning goals, not ratings of school quality.

Space use goal

The district aims to use 70%-100% of a school's available room for students. A "No" can mean the school is below or above that range.

Title I

Federal money that supports schools serving students from low-income households. The guide shows the expected designation.

IEP

An Individualized Education Program: a written plan for a student's special education services and support.

Choice program

A program with a special focus, such as arts or science. It may serve families beyond a neighborhood school boundary.

Student groups

Groups can overlap. Do not add the percentages together.

**You may notice slight differences in student numbers and/or demographics in schools that don't experience change because a focus option school has changed and we assume that students return to their neighborhood school.*

ATKINSON

School proposal | Options A and B

SCHOOL SNAPSHOT	DETAILS
Current program	K-5 neighborhood/language immersion
Expected enrollment with no changes	363 in 2027-28; 386 in 2031-32
District school size goal	More than 360 students
Students living within 1 mile	85.9%
Building notes	School space is described below.

WHY IS PPS CONSIDERING THIS?

Creating space for neighborhood students: Moving Spanish DLI to Lent creates the physical space needed at Atkinson to welcome neighborhood students from Creston.

DLI Schools serving each area: Spanish DLI is moved into schools serving each area of the district. For southeast Portland, this is Lent.

Closer to Kellogg: Creston students north of Powell live closer to Atkinson and Kellogg Middle School.

This is a proposal, not a final decision.

What is being proposed?

Atkinson would remain open as a neighborhood K-5 school.

The Spanish Dual Language Immersion (DLI) program would move to Lent K-5.

Atkinson would welcome neighborhood K-5 students from Creston.

Middle and high school pathway: All students in the new Atkinson boundary would go together to Kellogg for middle school and Franklin for high school.

What could students gain?

Safer, modern classrooms: Moving Creston students into Atkinson gives them upgraded spaces and more classmates to learn with.

Concentrated DLI program: Moving Spanish DLI to Lent builds a focused language center with full teacher collaboration.

Smooth middle and high school moves: Clear pathways keep friend groups together from elementary all the way through Franklin High School.

What else was considered?

Atkinson's central location: Atkinson was chosen to stay open over Creston because it is larger and more central to where families live in the new boundary.

Lent DLI school serving the area: Lent was chosen as the DLI school serving the area in the Southeast because it already functions as a full immersion school and families accessing Spanish DLI in this part of town live closer to Lent than Atkinson.
