

RIGHTSIZE. RIGHT SUPPORT. **RIGHT** *for* **STUDENTS.**

A family guide to the proposed school changes

Every school is a community. A school change can affect friendships, routines, programs, and a family's sense of belonging. This guide explains what is proposed and why.

Scenarios A and B are proposals, not final decisions. "No changes proposed" means these options do not include a change for that school.

Each school has a snapshot and a box explaining the reasons for the proposal. The next page shows enrollment estimates, programs, student groups, and maps. Estimates cover 2027-28 through 2031-32. They are not current student counts.

The possible benefits are goals. A larger school does not automatically get a full-time librarian, certain staff, or specific programs. Those details depend on the district's staffing rules, budget, and plans for making the changes.

A school or program move does not determine where an individual student receiving special education services will go. Families and school teams would need to plan each student's services and support.

The school details, numbers, and maps come from PPS school profiles. This guide explains that information in simpler language.

Words you may see in this guide

No changes

What is expected if the district keeps the current schools and programs.

Option A / Option B

The two scenarios. "A and B" means the same information applies to both.

School boundary

The area used to assign students to a neighborhood school based on where they live.

School communities joining

Students from two or more schools would come together. The proposal says which school building would close.

Programs joining

A program would come together at one school or move to another school.

DLI

Dual Language Immersion: learning in English and another language.

School size goal

More than 360 students for K-5 schools; more than 500 for K-8 or middle schools; more than 1,100 for high schools. These are planning goals, not ratings of school quality.

Space use goal

The district aims to use 70%-100% of a school's available room for students. A "No" can mean the school is below or above that range.

Title I

Federal money that supports schools serving students from low-income households. The guide shows the expected designation.

IEP

An Individualized Education Program: a written plan for a student's special education services and support.

Choice program

A program with a special focus, such as arts or science. It may serve families beyond a neighborhood school boundary.

Student groups

Groups can overlap. Do not add the percentages together.

**You may notice slight differences in student numbers and/or demographics in schools that don't experience change because a focus option school has changed and we assume that students return to their neighborhood school.*

BEACH

School proposal | Options A and B

SCHOOL SNAPSHOT	DETAILS
Current program	K-5 neighborhood/language immersion
Expected enrollment with no changes	284 in 2027-28; 287 in 2031-32
District school size goal	More than 360 students
Students living within 1 mile	94.2%
Building notes	Repair needs are described below.

WHY IS PPS CONSIDERING THIS?

The Beach building needs major repairs. The roof and building structure require urgent, expensive fixes to make it safe and modern.

We want stronger programs in safer buildings. Moving students out of Beach fixes safety concerns while bringing students together into stronger, fully supported schools.

This is a proposal, not a final decision.

What is being proposed?

Beach School would close as a school building. The Spanish Dual Language Immersion (DLI) program would move to César Chávez K-5. Students who live in the Beach neighborhood would now go to Chief Joseph.

What could students gain?

Better, safer classrooms: Students would move into buildings with upgraded spaces, learn alongside more classmates, and have access to more teachers and staff.

A stronger Spanish DLI program: Bringing all Spanish DLI students together at César Chávez creates a full, rich language learning community from kindergarten through 5th grade. It also lets Spanish-speaking teachers work together and plan as a team.

More Stability: Bringing communities together means schools have steadier funding and an increased access to resources for years to come.

What else was considered?

Chief Joseph is easier to reach: Chief Joseph is closer to where most families in the new school area live. Chief Joseph has plenty of space: Even though Beach is a larger building, Chief Joseph has more than enough room for all students. Chief Joseph is already updated: Chief Joseph recently received major improvements funded by local school bonds, including roof repairs and updated classrooms for general and special education.

BEACH

ENROLLMENT, PROGRAMS & MAPS

How many students are expected?

School year	2027-28	2028-29	2029-30	2030-31	2031-32
No changes	284	288	291	297	287

Options A and B: The Beach facility closes. The Beach community joins with the Chief Joseph community and the Beach Spanish DLI community joins with the Chavez Spanish DLI community.

Programs, school size & nearby families

Measure	No changes	Options A and B
Type of change	No changes	School would close
Meets school size goal?	No	School would close
Meets space use goal?	No	School would close
Students living within 1 mile	94.2%	School would close
Grades and programs	K-5 neighborhood/language immersion	School would close

Where would the school boundary be?

Who would the school serve?

Option	Poverty	Special education	Multilingual services	Underserved racial groups	Title I
No changes	34.7%	14.2%	12.5%	48.3%	Yes

Scenarios A and B: School would close
