A family guide to the proposed school changes

Every school is a community. A school change can affect friendships, routines, programs, and a family's sense of belonging. This guide explains what is proposed and why.

Scenarios A and B are proposals, not final decisions. "No changes proposed" means these options do not include a change for that school.

Each school has a snapshot and a box explaining the reasons for the proposal. The next page shows enrollment estimates, programs, student groups, and maps. Estimates cover 2027-28 through 2031-32. They are not current student counts.

The possible benefits are goals. A larger school does not automatically get a full-time librarian, certain staff, or specific programs. Those details depend on the district's staffing rules, budget, and plans for making the changes.

A school or program move does not determine where an individual student receiving special education services will go. Families and school teams would need to plan each student's services and support.

The school details, numbers, and maps come from PPS school profiles. This guide explains that information in simpler language.

Words you may see in this guide

No changes

What is expected if the district keeps the current schools and programs.

Option A / Option B

The two scenarios. "A and B" means the same information applies to both.

School boundary

The area used to assign students to a neighborhood school based on where they live.

School communities joining

Students from two or more schools would come together. The proposal says which school building would close.

Programs joining

A program would come together at one school or move to another school.

DLI

Dual Language Immersion: learning in English and another language.

School size goal

More than 360 students for K-5 schools; more than 500 for K-8 or middle schools; more than 1,100 for high schools. These are planning goals, not ratings of school quality.

Space use goal

The district aims to use 70%-100% of a school's available room for students. A "No" can mean the school is below or above that range.

Title I

Federal money that supports schools serving students from low-income households. The guide shows the expected designation.

IEP

An Individualized Education Program: a written plan for a student's special education services and support.

Choice program

A program with a special focus, such as arts or science. It may serve families beyond a neighborhood school boundary.

Student groups

Groups can overlap. Do not add the percentages together.

**You may notice slight differences in student numbers and/or demographics in schools that don't experience change because a focus option school has changed and we assume that students return to their neighborhood school.*

CRESTON

School proposal | Options A and B

SCHOOL SNAPSHOT	DETAILS
Current program	K-5 neighborhood
Expected enrollment with no changes	201 in 2027-28; 187 in 2031-32
District school size goal	More than 360 students
Students living within 1 mile	85.2%
Building notes	School space is described below.

WHY IS PPS CONSIDERING THIS?

Enrollment is dropping: Creston is expected to drop to just 187 students over the next few years, making it too small to support full staffing and programs.

Nearby schools have plenty of space: Neighboring schools like Atkinson have the room and buildings ready to welcome Creston students.

Better pathways for special-focus programs: Moving the Deaf and Hard of Hearing (DHH) program to Glencoe connects students with the Mt. Tabor Middle School pathway.

This is a proposal, not a final decision.

What is being proposed?

Creston School would close as a K-5 school building. Neighborhood K-5 students would move to Atkinson K-5.

The Deaf and Hard of Hearing (DHH) program would move to Glencoe K-5.

Clear middle and high school pathways: All K-5 students in the new neighborhood boundary would go together to Kellogg for middle school and Franklin for high school.

Early learning stays: The Creston Annex preschool building would stay open as a preschool center.

What could students gain?

Better, safer classrooms: Moving to Atkinson gives students updated learning spaces, modern classrooms, and more classmates to learn with.

More support and staff: Combining school communities gives students access to more teachers, full-time support staff, and stronger programs.

Smooth moves to middle and high school: Clear pathways mean friend groups stay together as they move from elementary school to Kellogg Middle School and Franklin High School.

What else was considered?

Atkinson is easier to reach: Atkinson was chosen over Creston because it has the space needed and is more central to where families live in the new boundary.

Peaceful Villa Housing: We took into account the new students who will be attending school from this new housing unit. Creston currently partners with Columbia Regional Inclusive Services (CRIS) to deliver services to students served in the Deaf and Hard of Hearing (DHH) Program. This is a regional program serving students from across the region, extending to communities such as Molalla and West Linn-Wilsonville. The program currently partners with Mt. Tabor Middle School for students continuing from Creston to Middle School programming in CRIS classrooms. When combining school communities with distinct Special Education programming, we are planning and ensuring tailored support through the transition. Students in the Deaf and Hard of Hearing program at Creston will receive their services in a DHH program based out of Glencoe Elementary School, a feeder for Mt. Tabor Middle School.

CRESTON

ENROLLMENT, PROGRAMS & MAPS

How many students are expected?

School year	2027-28	2028-29	2029-30	2030-31	2031-32
No changes	201	191	189	188	187

Options A and B: The Creston K-5 facility closes. The Creston community joins with the Atkinson community. The Deaf and Hard of Hearing Program joins with the Glencoe community.

Programs, school size & nearby families

Measure	No changes	Options A and B
Type of change	No changes	School would close
Meets school size goal?	No	School would close
Meets space use goal?	No	School would close
Students living within 1 mile	85.2%	School would close
Grades and programs	K-5 neighborhood	School would close

Where would the school boundary be?

Who would the school serve?

Option	Poverty	Special education	Multilingual services	Underserved racial groups	Title I
No changes	23.9%	31.0%	13.6%	22.1%	No

Scenarios A and B: School would close
