

RIGHTSIZE. RIGHT SUPPORT. **RIGHT** *for* **STUDENTS.**

A family guide to the proposed school changes

Every school is a community. A school change can affect friendships, routines, programs, and a family's sense of belonging. This guide explains what is proposed and why.

Scenarios A and B are proposals, not final decisions. "No changes proposed" means these options do not include a change for that school.

Each school has a snapshot and a box explaining the reasons for the proposal. The next page shows enrollment estimates, programs, student groups, and maps. Estimates cover 2027-28 through 2031-32. They are not current student counts.

The possible benefits are goals. A larger school does not automatically get a full-time librarian, certain staff, or specific programs. Those details depend on the district's staffing rules, budget, and plans for making the changes.

A school or program move does not determine where an individual student receiving special education services will go. Families and school teams would need to plan each student's services and support.

The school details, numbers, and maps come from PPS school profiles. This guide explains that information in simpler language.

Words you may see in this guide

No changes

What is expected if the district keeps the current schools and programs.

Option A / Option B

The two scenarios. "A and B" means the same information applies to both.

School boundary

The area used to assign students to a neighborhood school based on where they live.

School communities joining

Students from two or more schools would come together. The proposal says which school building would close.

Programs joining

A program would come together at one school or move to another school.

DLI

Dual Language Immersion: learning in English and another language.

School size goal

More than 360 students for K-5 schools; more than 500 for K-8 or middle schools; more than 1,100 for high schools. These are planning goals, not ratings of school quality.

Space use goal

The district aims to use 70%-100% of a school's available room for students. A "No" can mean the school is below or above that range.

Title I

Federal money that supports schools serving students from low-income households. The guide shows the expected designation.

IEP

An Individualized Education Program: a written plan for a student's special education services and support.

Choice program

A program with a special focus, such as arts or science. It may serve families beyond a neighborhood school boundary.

Student groups

Groups can overlap. Do not add the percentages together.

**You may notice slight differences in student numbers and/or demographics in schools that don't experience change because a focus option school has changed and we assume that students return to their neighborhood school.*

DR. MARTIN LUTHER KING JR.

School proposal | Options A and B

SCHOOL SNAPSHOT	DETAILS
Current program	K-5 neighborhood/language immersion
Expected enrollment with no changes	337 in 2027-28; 337 in 2031-32
District school size goal	More than 360 students
Students living within 1 mile	100.0%
Building notes	Building updates are described below.

WHY IS PPS CONSIDERING THIS?

Strong school features: MLK Jr. features a large 4.9-acre site, turf field, large building (618 students), and a newly upgraded roof.

Frees up room for Sabin: Moving Mandarin DLI to Boise-Eliot/Humboldt (BEH) opens up the physical classroom space needed at MLK Jr. to welcome Sabin neighborhood families.

This is a proposal, not a final decision.

What is being proposed?

Dr. Martin Luther King Jr. Elementary would remain open as a neighborhood K-5 school.

The Mandarin Dual Language Immersion (DLI) program would move to Boise-Eliot/Humboldt (BEH). MLK Jr. would expand its neighborhood boundary to welcome 100% of the closing Sabin school area.

What could students gain?

Upgraded school buildings: Incoming Sabin students gain access to modern turf fields, large outdoor spaces, and an updated roof.

Supporting the school over time: Expanding MLK Jr.'s historically small boundary increases student enrollment to stable levels.

What else was considered?

Fixing low enrollment: Expanding neighborhood boundary lines builds long-term steady student numbers for the school community.

What about special education?

Students receiving specialized programming at a closing school will be reassigned to a location for their IEP-identified services as close to their neighborhood school as possible. King will welcome students from Sabin into a K-5 SES classroom. The Special Education Department is collaborating with school teams and families to determine individual placements and will communicate directly with families regarding final locations.

DR. MARTIN LUTHER KING JR.

ENROLLMENT, PROGRAMS & MAPS

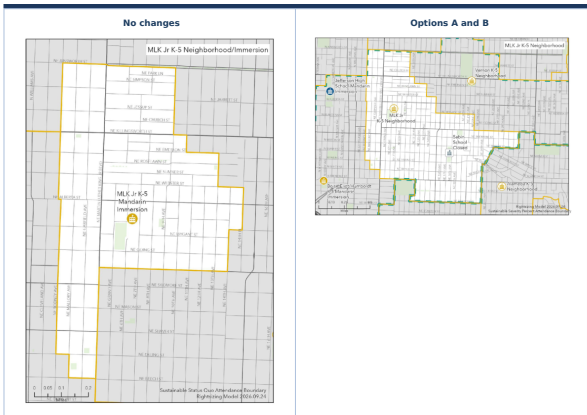

How many students are expected?

School year	2027-28	2028-29	2029-30	2030-31	2031-32
No changes	337	343	346	350	337
Options A and B	376	395	389	386	383

Programs, school size & nearby families

Measure	No changes	Options A and B
Type of change	No changes	School boundary change and Programs joining
Meets school size goal?	No	Yes
Meets space use goal?	No	No
Students living within 1 mile	100.0%	64.7%
Grades and programs	K-5 neighborhood/language immersion	K-5 neighborhood

Where would the school boundary be?

Who would the school serve?

Option	Poverty	Special education	Multilingual services	Underserved racial groups	Title I
No changes	51.1%	18.8%	10.7%	63.0%	Yes
Options A and B	37.0%	18.9%	9.7%	47.4%	Yes
