A family guide to the proposed school changes

Every school is a community. A school change can affect friendships, routines, programs, and a family's sense of belonging. This guide explains what is proposed and why.

Scenarios A and B are proposals, not final decisions. "No changes proposed" means these options do not include a change for that school.

Each school has a snapshot and a box explaining the reasons for the proposal. The next page shows enrollment estimates, programs, student groups, and maps. Estimates cover 2027-28 through 2031-32. They are not current student counts.

The possible benefits are goals. A larger school does not automatically get a full-time librarian, certain staff, or specific programs. Those details depend on the district's staffing rules, budget, and plans for making the changes.

A school or program move does not determine where an individual student receiving special education services will go. Families and school teams would need to plan each student's services and support.

The school details, numbers, and maps come from PPS school profiles. This guide explains that information in simpler language.

Words you may see in this guide

No changes

What is expected if the district keeps the current schools and programs.

Option A / Option B

The two scenarios. "A and B" means the same information applies to both.

School boundary

The area used to assign students to a neighborhood school based on where they live.

School communities joining

Students from two or more schools would come together. The proposal says which school building would close.

Programs joining

A program would come together at one school or move to another school.

DLI

Dual Language Immersion: learning in English and another language.

School size goal

More than 360 students for K-5 schools; more than 500 for K-8 or middle schools; more than 1,100 for high schools. These are planning goals, not ratings of school quality.

Space use goal

The district aims to use 70%-100% of a school's available room for students. A "No" can mean the school is below or above that range.

Title I

Federal money that supports schools serving students from low-income households. The guide shows the expected designation.

IEP

An Individualized Education Program: a written plan for a student's special education services and support.

Choice program

A program with a special focus, such as arts or science. It may serve families beyond a neighborhood school boundary.

Student groups

Groups can overlap. Do not add the percentages together.

**You may notice slight differences in student numbers and/or demographics in schools that don't experience change because a focus option school has changed and we assume that students return to their neighborhood school.*

School proposal | Options A and B

SCHOOL SNAPSHOT	DETAILS
Current program	High School
Expected enrollment with no changes	564 in 2027-28; 1,183 in 2031-32
District school size goal	More than 1,100 students
Students living within 1 mile	35.7%
Building notes	None

WHY IS PPS CONSIDERING THIS?

Connecting elementary and high school paths: Adjusting attendance lines connects high school boundaries with elementary changes near Bybee Lake Shelter (which shifted to Astor K-8).

This is a proposal, not a final decision.

What is being proposed?

Jefferson High School would remain open as a neighborhood high school.
Jefferson would make a minor boundary adjustment, shifting the Bybee Lake Shelter area to Roosevelt High School.

What could students gain?

Connected community paths: Keeps shelter families matched with the same regional school pathway as their elementary school.
Logical attendance zones: Ensures neighborhood boundaries match local community adjustments.

What else was considered?

Proximity to Roosevelt: Shifting the shelter boundary to Roosevelt keeps families closer to their assigned high school site.
