

RIGHTSIZE. RIGHT SUPPORT. **RIGHT** *for* **STUDENTS.**

A family guide to the proposed school changes

Every school is a community. A school change can affect friendships, routines, programs, and a family's sense of belonging. This guide explains what is proposed and why.

Scenarios A and B are proposals, not final decisions. "No changes proposed" means these options do not include a change for that school.

Each school has a snapshot and a box explaining the reasons for the proposal. The next page shows enrollment estimates, programs, student groups, and maps. Estimates cover 2027-28 through 2031-32. They are not current student counts.

The possible benefits are goals. A larger school does not automatically get a full-time librarian, certain staff, or specific programs. Those details depend on the district's staffing rules, budget, and plans for making the changes.

A school or program move does not determine where an individual student receiving special education services will go. Families and school teams would need to plan each student's services and support.

The school details, numbers, and maps come from PPS school profiles. This guide explains that information in simpler language.

Words you may see in this guide

No changes

What is expected if the district keeps the current schools and programs.

Option A / Option B

The two scenarios. "A and B" means the same information applies to both.

School boundary

The area used to assign students to a neighborhood school based on where they live.

School communities joining

Students from two or more schools would come together. The proposal says which school building would close.

Programs joining

A program would come together at one school or move to another school.

DLI

Dual Language Immersion: learning in English and another language.

School size goal

More than 360 students for K-5 schools; more than 500 for K-8 or middle schools; more than 1,100 for high schools. These are planning goals, not ratings of school quality.

Space use goal

The district aims to use 70%-100% of a school's available room for students. A "No" can mean the school is below or above that range.

Title I

Federal money that supports schools serving students from low-income households. The guide shows the expected designation.

IEP

An Individualized Education Program: a written plan for a student's special education services and support.

Choice program

A program with a special focus, such as arts or science. It may serve families beyond a neighborhood school boundary.

Student groups

Groups can overlap. Do not add the percentages together.

**You may notice slight differences in student numbers and/or demographics in schools that don't experience change because a focus option school has changed and we assume that students return to their neighborhood school.*

ROSA PARKS

School proposal | Options A and B

SCHOOL SNAPSHOT	DETAILS
Current program	K-5 neighborhood
Expected enrollment with no changes	159 in 2027-28; 168 in 2031-32
District school size goal	More than 360 students
Students living within 1 mile	100.0%
Building notes	Building updates are described below.

WHY IS PPS CONSIDERING THIS?

Updated school setup: Rosa Parks is an updated school with more room for students, an early learning classroom, SUN school and community support programs, and an on-site food pantry.

Filling open classroom space: Receiving students from Peninsula (site closure) and non-DLI neighborhood students from César Chávez increases building use and helps keep steady student numbers at elementary enrollment in the Roosevelt cluster.

This is a proposal, not a final decision.

What is being proposed?

Rosa Parks would remain open as a neighborhood K-5 school.

Rosa Parks would expand its boundary to receive 100% of the closing Peninsula K-5 boundary.

Rosa Parks would receive neighborhood (non-DLI) students from César Chávez K-5.

What could students gain?

Upgraded learning spaces: Incoming Peninsula students gain access to modern classrooms, updated building, and strong community support services.

What else was considered?

Maximizing modern space: Uses available building space at newly built Rosa Parks efficiently while building a strong student body

What about special education?

As an Inclusive Community School, Rosa Parks will welcome Peninsula students and staff into their community. Like Rosa Parks, Peninsula has built a strong foundation as an Inclusive Community School, providing the full continuum of services to students with disabilities in their neighborhood school. Together, these communities will unite as one Inclusive Community School. Portland Public Schools will maintain the complete continuum of Special Education services throughout the rightsizing and school closure process. We remain fully committed to delivering all IEP-determined programming and supports for every student. To ensure a seamless transition, school and district leaders will conduct site walk-throughs to evaluate programmatic readiness, space, transportation, and ADA accessibility. Special education administrators will work closely with school principals to ensure every site is prepared to meet student IEP requirements.
