A family guide to the proposed school changes

Every school is a community. A school change can affect friendships, routines, programs, and a family's sense of belonging. This guide explains what is proposed and why.

Scenarios A and B are proposals, not final decisions. "No changes proposed" means these options do not include a change for that school.

Each school has a snapshot and a box explaining the reasons for the proposal. The next page shows enrollment estimates, programs, student groups, and maps. Estimates cover 2027-28 through 2031-32. They are not current student counts.

The possible benefits are goals. A larger school does not automatically get a full-time librarian, certain staff, or specific programs. Those details depend on the district's staffing rules, budget, and plans for making the changes.

A school or program move does not determine where an individual student receiving special education services will go. Families and school teams would need to plan each student's services and support.

The school details, numbers, and maps come from PPS school profiles. This guide explains that information in simpler language.

Words you may see in this guide

No changes

What is expected if the district keeps the current schools and programs.

Option A / Option B

The two scenarios. "A and B" means the same information applies to both.

School boundary

The area used to assign students to a neighborhood school based on where they live.

School communities joining

Students from two or more schools would come together. The proposal says which school building would close.

Programs joining

A program would come together at one school or move to another school.

DLI

Dual Language Immersion: learning in English and another language.

School size goal

More than 360 students for K-5 schools; more than 500 for K-8 or middle schools; more than 1,100 for high schools. These are planning goals, not ratings of school quality.

Space use goal

The district aims to use 70%-100% of a school's available room for students. A "No" can mean the school is below or above that range.

Title I

Federal money that supports schools serving students from low-income households. The guide shows the expected designation.

IEP

An Individualized Education Program: a written plan for a student's special education services and support.

Choice program

A program with a special focus, such as arts or science. It may serve families beyond a neighborhood school boundary.

Student groups

Groups can overlap. Do not add the percentages together.

**You may notice slight differences in student numbers and/or demographics in schools that don't experience change because a focus option school has changed and we assume that students return to their neighborhood school.*

Building notes	None

WHY IS PPS CONSIDERING THIS?

Middle school DLI school serving the area: Moving Spanish DLI middle grade students from Beaumont to Roseway Heights brings together middle and high school Spanish language pathways and matches middle school changes across the region.

This is a proposal, not a final decision.

What is being proposed?

Roseway Heights would remain open as a neighborhood middle school.
Roseway Heights would receive Spanish DLI middle grade (6th-8th) students from Beaumont Middle School.
The Vietnamese DLI program would remain at Roseway Heights.

What could students gain?

Dual language program location: Houses both Spanish and Vietnamese DLI middle school pathways on one school.
Teacher teamwork: Concentrating dual language programs allows DLI teachers to work together, plan together, and grow alongside fellow language educators.

What else was considered?

Program strength: Keeping both DLI programs together was chosen because both language tracks continue to show student growth.
