

RIGHTSIZE. RIGHT SUPPORT. **RIGHT** *for* **STUDENTS.**

A family guide to the proposed school changes

Every school is a community. A school change can affect friendships, routines, programs, and a family's sense of belonging. This guide explains what is proposed and why.

Scenarios A and B are proposals, not final decisions. "No changes proposed" means these options do not include a change for that school.

Each school has a snapshot and a box explaining the reasons for the proposal. The next page shows enrollment estimates, programs, student groups, and maps. Estimates cover 2027-28 through 2031-32. They are not current student counts.

The possible benefits are goals. A larger school does not automatically get a full-time librarian, certain staff, or specific programs. Those details depend on the district's staffing rules, budget, and plans for making the changes.

A school or program move does not determine where an individual student receiving special education services will go. Families and school teams would need to plan each student's services and support.

The school details, numbers, and maps come from PPS school profiles. This guide explains that information in simpler language.

Words you may see in this guide

No changes

What is expected if the district keeps the current schools and programs.

Option A / Option B

The two scenarios. "A and B" means the same information applies to both.

School boundary

The area used to assign students to a neighborhood school based on where they live.

School communities joining

Students from two or more schools would come together. The proposal says which school building would close.

Programs joining

A program would come together at one school or move to another school.

DLI

Dual Language Immersion: learning in English and another language.

School size goal

More than 360 students for K-5 schools; more than 500 for K-8 or middle schools; more than 1,100 for high schools. These are planning goals, not ratings of school quality.

Space use goal

The district aims to use 70%-100% of a school's available room for students. A "No" can mean the school is below or above that range.

Title I

Federal money that supports schools serving students from low-income households. The guide shows the expected designation.

IEP

An Individualized Education Program: a written plan for a student's special education services and support.

Choice program

A program with a special focus, such as arts or science. It may serve families beyond a neighborhood school boundary.

Student groups

Groups can overlap. Do not add the percentages together.

**You may notice slight differences in student numbers and/or demographics in schools that don't experience change because a focus option school has changed and we assume that students return to their neighborhood school.*

SELLWOOD

School proposal | Options A and B

SCHOOL SNAPSHOT	DETAILS
Current program	Middle School neighborhood
Expected enrollment with no changes	523 in 2027-28; 350 in 2031-32
District school size goal	More than 500 students
Students living within 1 mile	33.1%
Building notes	Repair needs are described below.

WHY IS PPS CONSIDERING THIS?

Major building repairs needed: Sellwood Middle School faces major building concerns requiring an entire mechanical system replacement.

Dropping enrollment: Expected enrollment at Sellwood drops to 350 students by 2031-32.

Better building conditions: Moving its school pathway areas to Hosford and Brentwood Middle Schools brings together middle grade students into schools with more room for students and better building conditions.

This is a proposal, not a final decision.

What is being proposed?

Sellwood Middle School would close as a school building in 2028. Middle grade students from the Llewellyn boundary would move to Hosford Middle School. Middle grade students from the Duniway and closing Lewis boundaries would move to Brentwood Middle School. Middle and high school path: All areas would continue to feed into Cleveland High School.

What could students gain?

Upgraded buildings: Students move into schools with better building systems and layout space.
Consistent high school path: All student groups keep their path directly to Cleveland High School.

What else was considered?

Hosford proximity: Hosford offers closer proximity and better building systems for Llewellyn students compared to Sellwood.

SELLWOOD

ENROLLMENT, PROGRAMS & MAPS

How many students are expected?

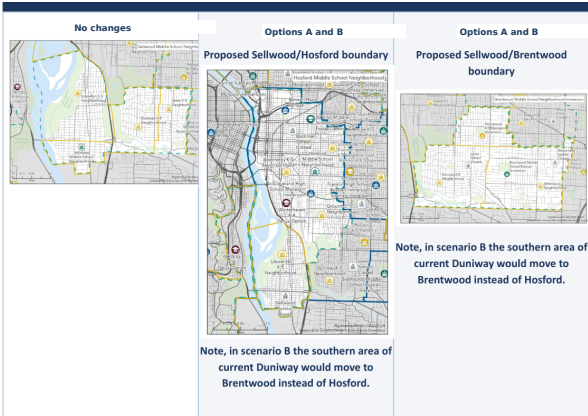

School year	2027-28	2028-29	2029-30	2030-31	2031-32
No changes	523	484	439	382	350
Options A and B	523	School would close	School would close	School would close	School would close

Options A and B: The Sellwood facility closes. The Sellwood community joins with the Hosford and Brentwood communities.

Programs, school size & nearby families

Measure	No changes	Options A and B
Type of change	No changes	School would close
Meets school size goal?	No	School would close
Meets space use goal?	No	School would close
Students living within 1 mile	33.1%	School would close
Grades and programs	Middle School neighborhood	School would close

Where would the school boundary be?

Who would the school serve?

Option	Poverty	Special education	Multilingual services	Underserved racial groups	Title I
No changes	12.8%	14.7%	2.1%	13.3%	No

Options A and B: the school would close.
