

RIGHTSIZE. RIGHT SUPPORT. **RIGHT** *for* **STUDENTS.**

A family guide to the proposed school changes

Every school is a community. A school change can affect friendships, routines, programs, and a family's sense of belonging. This guide explains what is proposed and why.

Scenarios A and B are proposals, not final decisions. "No changes proposed" means these options do not include a change for that school.

Each school has a snapshot and a box explaining the reasons for the proposal. The next page shows enrollment estimates, programs, student groups, and maps. Estimates cover 2027-28 through 2031-32. They are not current student counts.

The possible benefits are goals. A larger school does not automatically get a full-time librarian, certain staff, or specific programs. Those details depend on the district's staffing rules, budget, and plans for making the changes.

A school or program move does not determine where an individual student receiving special education services will go. Families and school teams would need to plan each student's services and support.

The school details, numbers, and maps come from PPS school profiles. This guide explains that information in simpler language.

Words you may see in this guide

No changes

What is expected if the district keeps the current schools and programs.

Option A / Option B

The two scenarios. "A and B" means the same information applies to both.

School boundary

The area used to assign students to a neighborhood school based on where they live.

School communities joining

Students from two or more schools would come together. The proposal says which school building would close.

Programs joining

A program would come together at one school or move to another school.

DLI

Dual Language Immersion: learning in English and another language.

School size goal

More than 360 students for K-5 schools; more than 500 for K-8 or middle schools; more than 1,100 for high schools. These are planning goals, not ratings of school quality.

Space use goal

The district aims to use 70%-100% of a school's available room for students. A "No" can mean the school is below or above that range.

Title I

Federal money that supports schools serving students from low-income households. The guide shows the expected designation.

IEP

An Individualized Education Program: a written plan for a student's special education services and support.

Choice program

A program with a special focus, such as arts or science. It may serve families beyond a neighborhood school boundary.

Student groups

Groups can overlap. Do not add the percentages together.

**You may notice slight differences in student numbers and/or demographics in schools that don't experience change because a focus option school has changed and we assume that students return to their neighborhood school.*

SUNNYSIDE ENVIRONMENTAL

School proposal | Options A and B

SCHOOL SNAPSHOT	DETAILS
Current program	K-8 neighborhood & choice program
Expected enrollment with no changes	484 in 2027-28; 475 in 2031-32
District school size goal	More than 360 students (general district goal)
Students living within 1 mile	96.8%
Building notes	School space is described below.

WHY IS PPS CONSIDERING THIS?

Richer middle school options: Changing Sunnyside from a K-8 special-focus choice school to a K-5 neighborhood school allows 6th-8th grade students to access a focused middle school with sustainable programming. This means students will have more access to educational activities.

Better building conditions: Sunnyside provides a central location and better building conditions compared to the closing Buckman school.

This is a proposal, not a final decision.

What is being proposed?

Sunnyside would change to a K-5 neighborhood school and would no longer take lottery transfers. Sunnyside would welcome 50% of the neighborhood school boundary from Buckman (the area north of Burnside). Middle grade (6th-8th) students would move to Hosford Middle School. Middle and high school path: High school students would move to Cleveland High School instead of Franklin High School.

What could students gain?

Updated building environment: Incoming Buckman students move into an updated Sunnyside building. Comprehensive middle school access: Neighborhood 6th-8th graders join Hosford for broader electives, athletics, and middle school staff.

What else was considered?

Current lottery protection: Current out-of-neighborhood students admitted through the lottery would be permitted to remain through 5th grade. Sunnyside shifts support balancing nearby elementary schools.

What about special education?

As we combine school communities with distinct Special Education programming, we are carefully planning each step to ensure tailored, continuous support throughout the transition. The Social Emotional Skills (SES) Classrooms currently located at Buckman Elementary School will be relocated to Sunnyside Elementary School. To ensure a seamless transition, special education administrators will work closely with school leaders to evaluate programmatic readiness, space, transportation, and ADA accessibility to meet all student IEP requirements.
