

RIGHTSIZE. RIGHT SUPPORT. **RIGHT** *for* **STUDENTS.**

A family guide to the proposed school changes

Every school is a community. A school change can affect friendships, routines, programs, and a family's sense of belonging. This guide explains what is proposed and why.

Scenarios A and B are proposals, not final decisions. "No changes proposed" means these options do not include a change for that school.

Each school has a snapshot and a box explaining the reasons for the proposal. The next page shows enrollment estimates, programs, student groups, and maps. Estimates cover 2027-28 through 2031-32. They are not current student counts.

The possible benefits are goals. A larger school does not automatically get a full-time librarian, certain staff, or specific programs. Those details depend on the district's staffing rules, budget, and plans for making the changes.

A school or program move does not determine where an individual student receiving special education services will go. Families and school teams would need to plan each student's services and support.

The school details, numbers, and maps come from PPS school profiles. This guide explains that information in simpler language.

Words you may see in this guide

No changes

What is expected if the district keeps the current schools and programs.

Option A / Option B

The two scenarios. "A and B" means the same information applies to both.

School boundary

The area used to assign students to a neighborhood school based on where they live.

School communities joining

Students from two or more schools would come together. The proposal says which school building would close.

Programs joining

A program would come together at one school or move to another school.

DLI

Dual Language Immersion: learning in English and another language.

School size goal

More than 360 students for K-5 schools; more than 500 for K-8 or middle schools; more than 1,100 for high schools. These are planning goals, not ratings of school quality.

Space use goal

The district aims to use 70%-100% of a school's available room for students. A "No" can mean the school is below or above that range.

Title I

Federal money that supports schools serving students from low-income households. The guide shows the expected designation.

IEP

An Individualized Education Program: a written plan for a student's special education services and support.

Choice program

A program with a special focus, such as arts or science. It may serve families beyond a neighborhood school boundary.

Student groups

Groups can overlap. Do not add the percentages together.

**You may notice slight differences in student numbers and/or demographics in schools that don't experience change because a focus option school has changed and we assume that students return to their neighborhood school.*

WOODMERE

School proposal | Options A and B

SCHOOL SNAPSHOT	DETAILS
Current program	K-5 neighborhood
Expected enrollment with no changes	224 in 2027-28; 225 in 2031-32
District school size goal	More than 360 students
Students living within 1 mile	90.8%
Building notes	Building updates are described below.

WHY IS PPS CONSIDERING THIS?

Low enrollment numbers: Both Woodmere and Whitman face enrollment challenges below district enrollment goals, with Woodmere remaining in the low 220s.

Central school space: Whitman is closer to where students live, has additional space and planned schoolyard improvements.

This is a proposal, not a final decision.

What is being proposed?

Woodmere School would close as a school building. 100% of its neighborhood K-5 school boundary would shift to Whitman K-5. Middle and high school pathway: All students in this combined boundary move to Brentwood Middle School and then to Franklin High School.

What could students gain?

Full student support: Combining school communities gives students access to more classmates, full-time staff, and stable classroom support.

What else was considered?

Whitman was selected as the receiving school over Woodmere because of its central location relative to where students live.

What about special education?

The Communication Behavior (CB) classrooms currently located at Woodmere would be moved to Kelly Elementary. The Special Education Department would work together with the school team and families to identify individual student placements for the upcoming school year: Special education classrooms: Provided in the CB Classrooms at Kelly Elementary. Move to Whitman Elementary: Joining a neighborhood school supporting students with and without disabilities. As a neighborhood school supporting students with and without disabilities, Whitman provides the full range of special education services. School teams would contact families in the coming weeks to discuss individual move plans and answer any questions.

WOODMERE

ENROLLMENT, PROGRAMS & MAPS

How many students are expected?

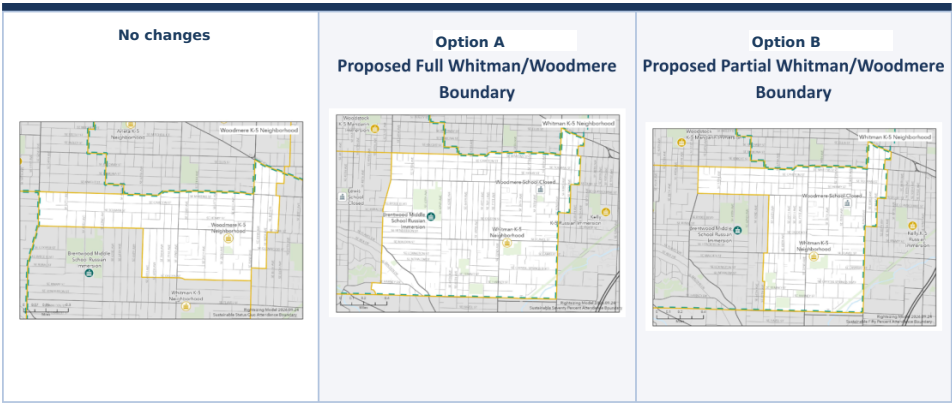

School year	2027-28	2028-29	2029-30	2030-31	2031-32
No changes	224	222	223	217	225

Options A & B: The Woodmere facility closes. The Woodmere community joins with the Whitman community.

Programs, school size & nearby families

Measure	No changes	Option A	Option B
Type of change	No changes	School would close	School would close
Meets school size goal?	No	School would close	School would close
Meets space use goal?	No	School would close	School would close
Students living within 1 mile	90.8%	School would close	School would close
Grades and programs	K-5 neighborhood	School would close	School would close

Where would the school boundary be?

Who would the school serve?

Option	Poverty	Special education	Multilingual services	Underserved racial groups	Title I
No changes	59.0%	30.4%	25.1%	52.0%	Yes

Scenarios A and B: School would close
